DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Truong T. Dinh on November 23, 2005.

The application has been amended as follows: In line 1 of claim 5 the numeral "4" has been replaced with the number --1--.

In line 1 of claim 6 the numeral "4" has been replaced with the number --1--.

Allowable Subject Matter

2. Claims 1-3 and 5-21 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-3, 5-17, and 19-21 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the circuit further comprises a phase generator (270) providing the first sequence of phase values based on a frequency control value (FreqCtrl_1) in combination with the rest of the limitations of the base claims and any intervening claims. Claim 18 is allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 6 wherein the digital clock generator (250) is operative to generate a third analog signal (ACLK) in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
